## FAULTLESS FAMILY MEDICINE

"I have used Simmons' Liver Regulator for many years, having made it my only family medicine. My mother before me was very partial to it. It is a safe, good and reliable medicine for any disorder of the system, and if used in time is a great preventive of sickness. I often recommend it to my friends, and shall continue to do so."

Rev. James M. Rollins,  
"Pastor M. E. Church, So. Fairfield, Va."

TIME AND DOCTORS' BILLS SAVED BY  
always keeping Simmons' Liver Regulator in the house.

"I have found Simmons' Liver Regulator the best family medicine I ever used for anything that may happen, have used it in Indigestion, Colic, Diarrhoea, Biliousness, and found it to relieve immediately. After eating a hearty supper, if on going to bed I take about a teaspoonful, I never feel the effects of the supper eaten."

## CHAMPION

DOUBLE

CINCHA.

Number 2, \$2.50 Each.

Number 9, \$1.50 Each.

This Cincha has taken the lead over all others where once used. With a single cincha too much pressure has to be used to keep the saddle in place. In a wide Cincha the edges are often loose while the middle is tight. The use of two separate Cinchas is also objectionable, one is liable to be drawn tighter than the other. The loose one usually acts as an irritant to the animal, slipping in a short time through the exercise, and moving forward or backward. By the use of such Cinchas the animal is frequently ruined by kidney lumps and other diseases.

The best Cincha is the Patent C. R. Double Cincha. It is joined and fastened to fit the belly of the horse, so that the pressure will be equal both in length and breadth. In addition to this, it is easily tightened, the Latigo strap from the saddle running lightly over the roller in the ring on the Cincha; this roller in itself does admirable service. Rust does not affect the rings as they are galvanized.

A GREAT OFFER.

The Cincha No. 2, is offered with one year's subscription to the CHAMPION for \$5.50 and No. 9, for \$6.50. This patent No. 2 cincha, the best ever invented, is actually offered for \$1.50 above the price of the subscription to the CHAMPION.

Price of the Cincha without subscription to the CHAMPION is, No. 2, \$2.50; No. 9, \$3.50.

Call at the Office of the

CHAMPION

And See the Samples.

Orders by mail will receive prompt attention and the Cincha will be mailed in a registered letter to any Post Office. No. 2 for 35 cents extra; No. 9 for 45 cents extra.

Address, CHAMPION OFFICE,  
Flagstaff, Arizona.

Noted.

Wanted—One hundred tie-choppers, and two hundred teams, to haul ties, at Flagstaff, Arizona. For particulars apply to D. M. Riordan, Superintendent Ayer Lumber Company.

## STOCK NOTES.

They will try a beef-packing house at Dodge City, Kan.

Glanders is prevailing to an alarming extent in Montreal, Canada.

Colorado has passed a law making it \$200 fine to kill mountain sheep.

The International Range cattle Association meets at Denver on February 8th.

Ocean insurance on cattle now ranges from 3 to 4 per cent, and freight from \$9.50 to \$12.00 per head.

The Stockgrower says 259 Arizona stockers, averaging 832 pounds, found a market in Kansas City this week at \$2.65 per cwt.

Breeders and dealers in good stock horses, cattle or sheep will find the CHAMPION a paying advertising medium for their business.

A Badland cattle raiser in Dakota says it was 56 degrees below zero on his range on the 8th. of Jan. Cowboys must earn their wages up there.

Twenty-one head of cattle among the herds on the Blue river in Nebraska, have lately died from what is believed to be rabies, as a dead dog was known to be in the pasturage last summer.

Twenty horses were killed in one bull fight not long ago in Havana. Heaters that would enjoy a sport in which horses are sacrificed in such a way as that should not be allowed the pleasure of having horses.

The stock inspectors of New Mexico are charged with holding some cows shipped in from the East until after the birth of their calves, so as to collect the legal fees of \$1 per head for sanitary inspection.

If you raise the right kind of horses the buyers will hunt for you; if the wrong kind, you will have to hunt the buyers. This may mean a good deal in dollars and cents to you in the course of a life-time.—North Western Journal.

The Range Convention that will assemble at Denver on the 8th prox. will be composed of the cream of range-men, who will see that no packing or adulterating influence of the pure article will be permitted.—Hoof and Horn.

The Drovers Journal gives the following figures of cattle slaughtered in Chicago during the year: Swift & Co. slaughtered during the year 450,547; Libby McNeil & Co. 110,699; Fairbank & Co., 37,152; Hammond & Co., 105,600; Armour & Co., 380,656. Total, 1,440,654.

The most desirable thing, next to an independent stock yards and refrigerator establishment in Texas, is the proposed stock yards scheme at St. Louis, and it should be backed by Texas and western stockmen for all they are worth.—Texas Stockman.

If it is worth from fifty to one hundred dollars to be able to tell the buyer of your horse that he is from some noted sire, why will you object to paying a difference of a fifth or a tenth of that amount in service fees? This is something worth thinking about.

An exchange says: "Cattle are reported wintering well in Texas, better than they have for three years. If bankers and capitalists be as easy with cattlemen for a year or so as they have been in the past will be lovely in a short time; but the disposition to crowd matters will make very hard pulling for a good many cattlemen who have no way of getting money until the next beef crop is marketed."

There are many things which now seem to indicate that horses will be more valuable during the next year than for several years past. A general expectation of better times in the near future would, in itself, have an influence in this direction. Factories and mills of all kinds will be busier than for a long time, and this will make a better demand. We can see no reason why the value of horses will not get better at least with the opening of the coming spring.

Charles Francis Adams, the railroad magnate, says the reason railroads oppose the introduction of improved railroad cars in which cattle can be watered and fed and can also lie down when en route, is because there are 44,000 of the old fashioned cars now in use which would prove a total loss to the railroads. He says the only solution of the question is for Congress to pass a law requiring all cattle cars built hereafter to be built on the improved plan.
